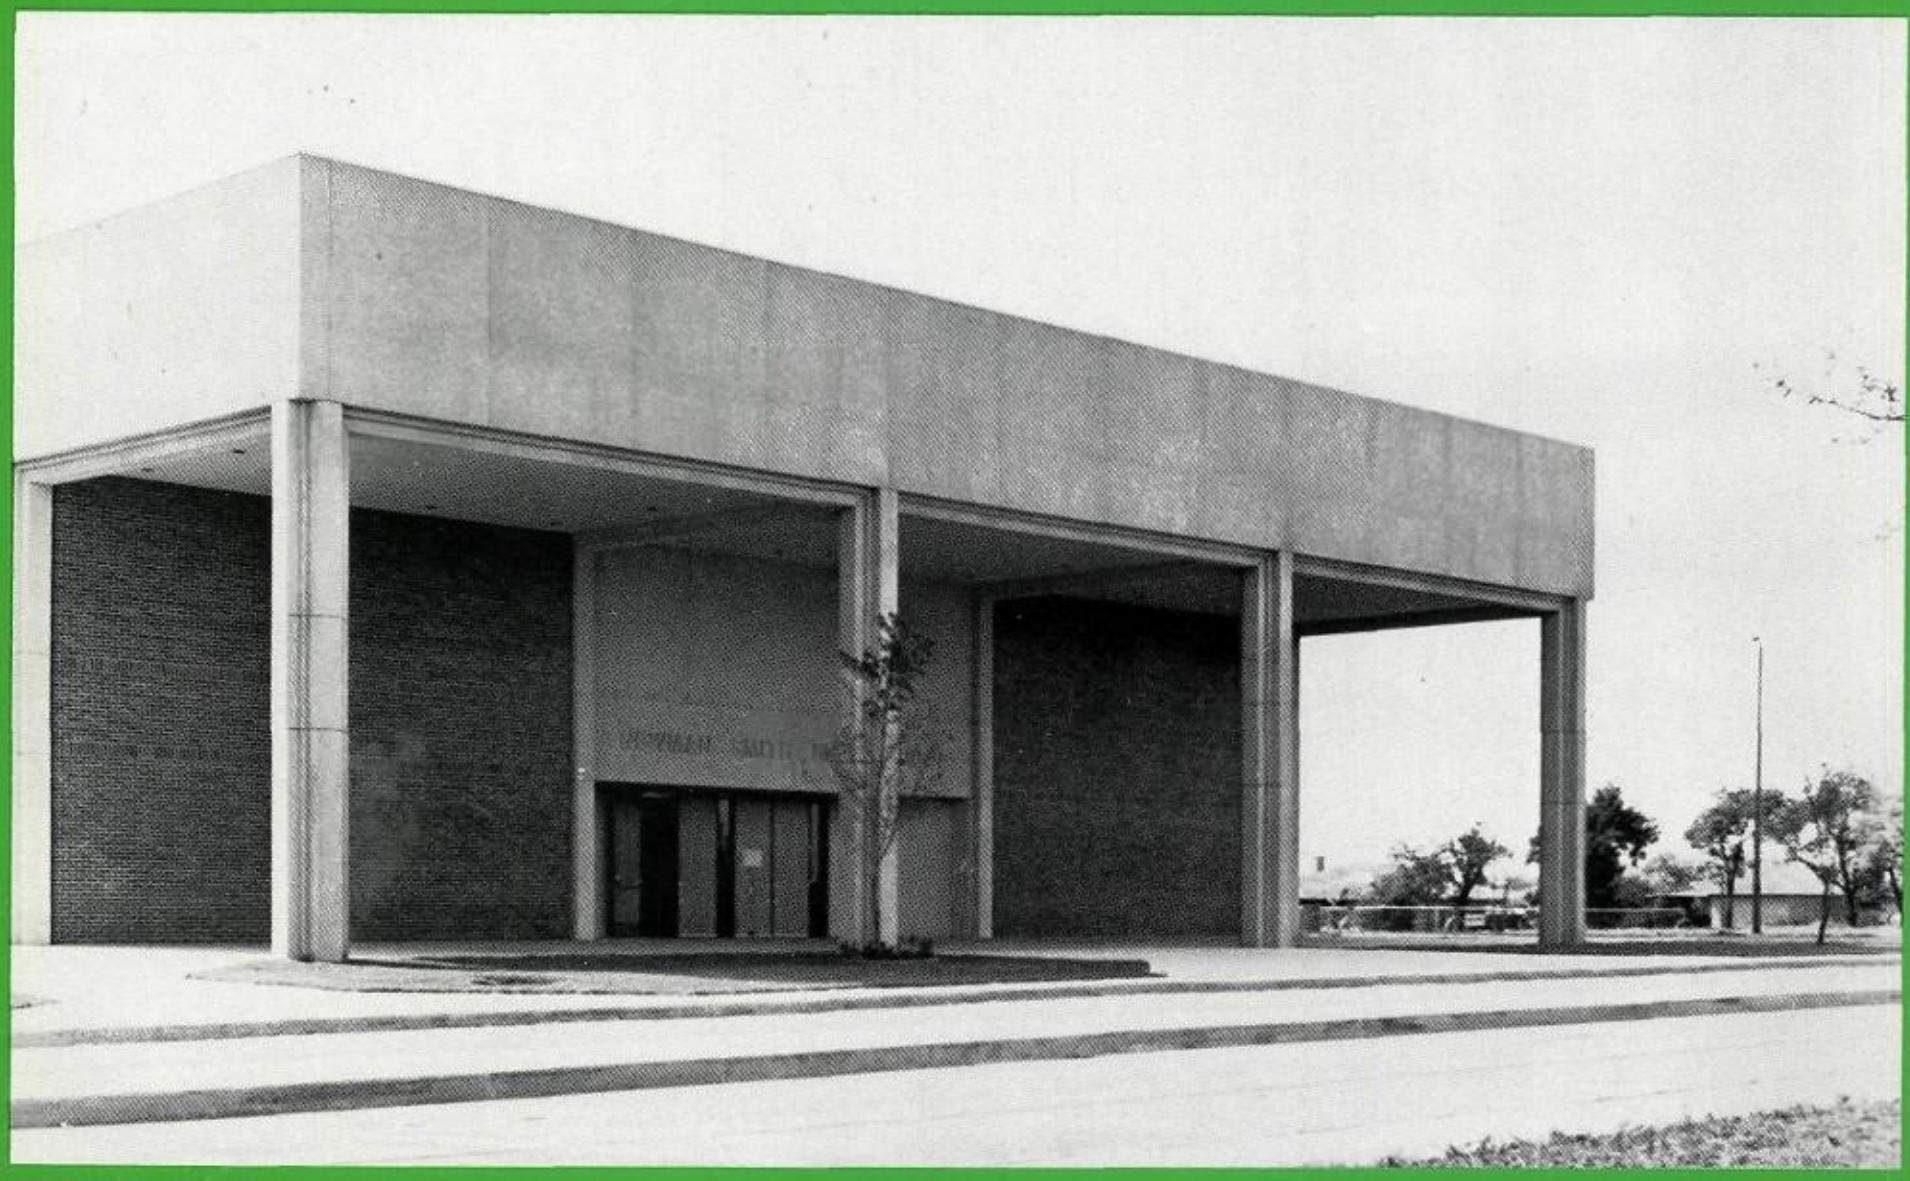
Lift your head to the green and gold
Newman Smith High School.
And we'll always be loyal and true.
And our hearts are fully blessed
And our spirit is the best.
Let us proudly lift our praise to you,
Newman Smith High School.

Harold Hinsley



Dedication

During his fourteen years as superintendent of schools, Newman Smith has earned the respect and love of members of the community as he has endeavored to build a school district known for excellence. It is due to his effort that this high school has become a reality as an edifice devoted to learning. The 1976 yearbook staff is proud to be part of a school named for a man such as Mr. Smith and wishes to dedicate the first issue of The Iliad to him.

Kaleidoscope

Never ending, always changing, our environment, our friends, sights, sounds, moods, experiences . . . The world, our lives, and our identities are all composed of a kaleidoscope of such things. Every mood, each experience, is important in shaping our world. These feelings and encounters, once past, cannot be relived but can be remembered throughout the years.

The members of The Iliad staff chose the theme "Kaleidoscope" because it best describes the various moods, events, and emotions of this first year. The color of joy, the sound of laughter, and the occasional confusion and pain of anxiety, mixed with scores of other emotions, are an everlasting kaleidoscope.

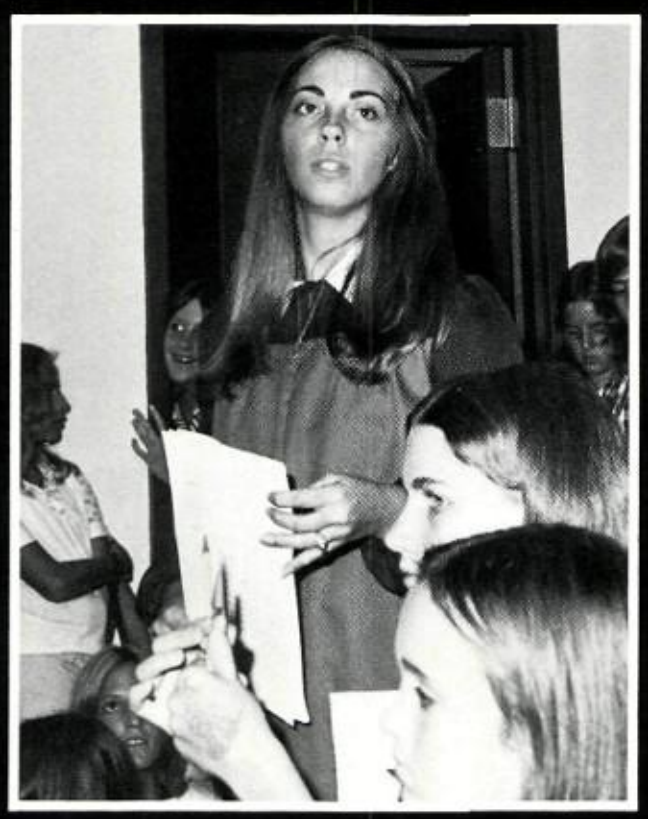
Reflections on the beginning. . .



Participating in school activities and scholastic competition has been rewarding for many students and faculty members. Privileged are the students who have attended N.S.H.S. during this first year and who are able to share in the beginnings of a new school and to start the traditions of the student body. Those who entered into competition and are the first to win honors at N.S.H.S. deserve much recognition and, along with th entire first student body, will always be remembered.

Starr,

You have a great personality and your a good-friend. I've known you since 6th grade and I don't think you have changed to much except for becoming a closer friend. We've had some good and bad times this year, mostly laughing ones. I really hope will remain friends for a long → time. I hope you'll change your mind about what I told you? I really think you would be a lot better off. Think about it? Keep in touch with me in the summer and hope to see ya next year. Love ya

Starr,

You've been a real good friend and you've got a great personality. Your a great person to talk to in homeroom. I'm so glad that it can talk all my boy problems over with you. Starr I'm so sorry that you had to get hurt by that guy named Jim. Now I wish you would have listened to Bernie and Keith. I know what your going through because I've been through nearly the same thing. If you ever need to talk your problems over with anyone would you please let it be me. The next time someone tries to warn you about someone would you at least listen a little bit. Next time you see Jim

You're such a sweet girl I think I'd know if you were a real good friend I'd know you're such a super person to talk to in homeroom

time around, whoever it is would you think about it first. I just don't want you to go through that thing again. Starr you are just like a sister to me. If ever you need a place to stay would you please come to my house. Starr this may really dumb but you know how it is. You are really a super cute and you have a super personality. You are good in "everything" you
